PRAYERS.

The Honourable the Speaker informed the Senate that a communication had been received from the Secretary to the Governor General.

The communication was then read by the Honourable the Speaker, as follows:—

GOVERNMENT HOUSE
OTTAWA

27th FEBRUARY, 1974

Madam,

I have the honour to inform you that His Excellency the Governor General will arrive at the Main Entrance of the Parliament Buildings at 10:40 a.m. on this day, Wednesday, the 27th of February 1974, and when it has been signified that all is in readiness, will proceed to the Chamber of the Senate to open formally the Second Session of the Twenty-ninth Parliament of Canada.

I have the honour to be,
Madam,
Your obedient servant,

ESMOND BUTLER
Secretary to the Governor General.

The Honourable
The Speaker of the Senate,
Ottawa.

Ordered, That the communication do lie on the Table.

The Honourable the Speaker having put the question whether the Senate do now adjourn during pleasure to await the arrival of His Excellency the Governor General, it was—

Resolved in the affirmative.

After awhile, His Excellency the Governor General having come and being seated upon the Throne—

The Honourable the Speaker commanded the Gentleman Usher of the Black Rod to proceed to the House of Commons and acquaint that House that:—

"It is the pleasure of His Excellency the Governor General that they attend him immediately in the Senate Chamber."

The House of Commons being come,

His Excellency the Governor General was then pleased to open the Session by a gracious Speech to both Houses, as follows:—

Honourable Members of the Senate:

Members of the House of Commons:

I have the honour to welcome you to the Second Session of the 29th Parliament of Canada.

In addressing you for the first time, I should like to express my feeling of honour at having been chosen Her Majesty's representative in Canada. As I said at the time of my investiture, the office which I have the honour to hold has a continuous history of three and half centuries. I am anticipating with pleasure the opportunity to travel in Canada and to meet citizens from all walks of life.

We look forward to the visit of Queen Elizabeth, The Queen Mother, for whom all Canadians have a great affection. She will be in Canada from June 25th to June 30th to present new colours to the Toronto Scottish and to the Black Watch (Royal Highland Regiment) of Canada; Her Majesty is Colonel-in-Chief of both regiments.

I speak to you at a time of serious disturbance in the international economic situation, arising from problems of supply and price of certain commodities, particularly oil.

Most countries, developed and developing, witnessed significant economic expansion in 1973. The economic prospects for 1974 seemed, until recently, no less encouraging. The reduction of the amount of oil exported by some of the major producing countries and the increase in price has brought a sudden and dramatic change in this situation.

For the developing countries of the world, the increased cost of oil has in many cases wiped out the small margins on which they depended for economic development and better means to support their growing populations. For the industrialized countries, of which Canada is one of the few close to being self-reliant in oil and energy generally, it means that many of them will incur large balance of payments deficits and will have to find means of financing them. For the world as a whole, it could mean an overall reduction in demand with a consequent depressing effect on economic activity.

The Government attaches the highest importance to solving these problems through concerted international action and co-ordination of national policies. The meeting of the major oil importing countries was a first step in this direction. It will be followed by meetings with the oil-producing states and the developing countries. The United Nations, the International Monetary Fund, the World Bank and other international organizations will also become actively involved.

In working towards a solution of these international economic problems the major consuming countries must recognize the legitimate aspirations of all the producing countries to utilize their resources to assist in their own national economic development. But the developed world, as well as the resource-rich countries of the developing

world, must also take increasingly vigorous steps to reduce disparities between themselves and the less developed and less fortunate nations.

While the developments affecting the supply and price of oil are in part the product of special circumstances, the underlying situation thus set in relief is much more general. Food prices have risen sharply as a result of the growth of world population on which has been superimposed serious crop failures in a number of countries. The prices of other internationally-traded commodities have also increased following the simultaneous upsurge in economic activity in all industrialized countries. The increases in the food and commodity sectors have moreover led to increases in other prices producing generalized inflationary pressures.

No country has been immune from the increase in prices experienced in 1973 and which is continuing in 1974. The phenomenon is world-wide, not an isolated one affecting this or that country alone.

All countries, including Canada, have rejected a deliberately planned slow down in economic activity as a means to fight inflation. Some have turned to income and price controls. These attempts have on the whole not been successful.

The Canadian economy, perhaps more than any other, is closely tied to international trade and markets. The principal inflationary pressures have come from outside the country. It would have been singularly inappropriate under such conditions to have resorted to general income and price controls and the Government rejected them for these reasons.

A principal responsibility of the Government and one of its main policy objectives is to maintain high levels of income, production and employment. This policy should in itself help to overcome some of the supply problems which are causing prices to rise. But in addition, and more immediately, the Government's policy in dealing with inflation will be to step in, as it had done in the past, and take specific measures to increase the supply of certain goods and services, to protect those who are not able to protect themselves against the effects of inflation, to cushion consumers against sudden and disruptive price increases of essential commodities, and to prevent any group or groups from taking undue advantage of the current situation at the expense of others.

In the case of oil, the Government has been concerned about the individual hardships caused by the rise in prices and about the overall effect of the increase on the economy. Nonetheless, for Canada to become self-reliant and be protected against abrupt changes in supply, prices must be such as to encourage the exploration and development of non-conventional and frontier oil resources. The Government must ensure that a sufficient part of the funds generated by higher prices will be used for such exploration and development. It will introduce legislation to create a national petroleum company which will assure greater Canadian presence and par-

ticipation in these and other activities. It has announced the extension of the pipeline from the Western oil fields to Eastern Canada and the establishment of a single Canadian market which will guarantee an outlet for domestically-produced oil.

In furthering these longer-term objectives, the Government has a duty to manage the economy in the interests of all Canadians, and in particular to moderate the inflationary effects resulting from the oil crisis. It has sought, in co-operation with the provinces, to make sure that the difficult transition to higher oil and energy costs occurs in an orderly way so as to not cause unnecessary disruptions in economic activity, employment and prices. To this end, it must ensure that the price of domestically-produced oil does not increase at an unreasonable rate and that the price of oil be the same in all parts of Canada subject, of course, to transportation costs. Legislation will be introduced to ensure that the responsibilities of the Government in these respects can be effectively discharged.

Discussion with the provinces on the Government's objectives and on the best means of achieving them is continuing. The Government will make every effort to reach agreement on arrangements that will discharge its responsibilities in a way that is fair to the provinces where the main sources of the oil and gas are located as well as to consumers in the country as a whole.

At the same time as there is increasing concern about shortages in the supply of energy, it is apparent there is an inadequate supply of food in many parts of the world. In some countries the situation has reached critical proportions. In Canada there have not been such serious shortages but international market pressures have forced our food prices upwards. It is clear that this country's production must be increased. The Government is developing a policy on food based on the following objectives:

- an adequate and dependable supply of quality food for a growing population in Canada enjoying a rising standard of living;

- reasonable food prices:

- for the consumer, in not requiring an undue proportion of income for Canadians to secure a sufficient and balanced diet,

- for the producer, in providing a return adequate to encourage production of food items which can be economically and efficiently produced in Canada;

- a continuing supply and increasing production of these food products in which Canada has a competitive advantage for export to commercial markets and also for a contribution to international food aid programs.

The Government's objectives will guide a re-assessment of existing programs in the areas of agriculture and fisheries. The Government will wish to consult with provincial governments, consumer groups and producers.

The producer must be ensured a fair income for his work. His confidence in long-term market opportunities is an essential element in the Government's policy. The producer should have access to all markets in Canada. He will also be encouraged to expand food exports.

The consumer must be ensured a fair value from his dollar. He must be protected against disruptive increases in the price of essential foodstuffs caused by international market demand. Guarantees against unduly low prices to producers must be coupled with guarantees against unduly high prices to consumers.

In the long term the continuity of domestic supply must take into account optimum overall land use in Canada and especially the trend to diversion of productive land for non-agricultural purposes. The Government intends to enter into discussions with the provinces since they are vitally involved in this question.

As positive steps in the achievement of adequate supplies of food at a reasonable cost, measures directed in the main at increasing food production will be laid before you in the following areas:

- guaranteed loans and other forms of assistance to both farmers and fishermen to assist them in purchasing or modernizing their equipment;

- amendments to the Export and Import Permits Act to provide the Government with better means to stabilize the Canadian market;

- improving the availability of manpower for food production;

- assistance in the construction of new storage facilities;

- research to make it possible to increase production, improve quality, and lower costs;

- improvements in harbour facilities for fishing fleets;

- incentives to increase Canada's catch of unexploited stocks of fish;

- advance payments on crops to assure producers of timely cash receipts;

- an agricultural stabilization plan to encourage rational production decisions;

- assistance to young farmers to provide sufficient financial incentives for them to establish themselves in farming;

- better veterinary training facilities;

- a prairie grain market insurance plan;

- improvements in Canadian grain rail transportation capabilities;

- increased availability of reasonably priced feed grains;

- incentives to increase the production of livestock necessary to provide for Canadian and export markets.

As part of the Government's economic management, a major element in the policy to mitigate inflation is to increase production and supply: many measures have been indicated with respect to energy and food. Of course, Canadians must strengthen their economy in other ways to expand employment opportunities and achieve a greater degree of control over their economic affairs.

Measures will be proposed to aid small businesses, both financially and by providing better conselling services by the creation of a Federal Business Development Bank. Steps will be taken to ensure further processing of resources in Canada. The Government will encourage the development of the petrochemical industry based on the upgrading of Canadian resources and better access to world markets. Amendments will be proposed to the Bank Act in order to permit provinces to participate in the ownership of banks. An amendment to the Export Development Act will be introduced to encourage further expansion of Canada's foreign trade. Proposals will be made to ensure Canadian control of the computer communications field. Amendments to the Combines Investigation Act, directed at encouraging competition, will be put before you.

The development and use of technology is also essential to the Government's approach to increasing national economic production. Steps will be taken to obtain greater returns from industrial research and development as well as technological innovation in Canada.

Scientific knowledge and its application is a keystone to meeting the challenges facing Canada, including those in the areas of food, energy or industrial development. The objective of the Government's science policy is the rational generation and acquisition of scientific knowledge and the planned use of science and technology in support of national goals. The Ministry of State for Science and Technology will be developing national science objectives as a basis for exercising enhanced advisory and co-ordinating authority within the Government. Two new granting councils will be formed, one for social sciences and humanities and the other for natural sciences.

The Government attaches great importance to regional development. Many of the measures to be introduced during this Session were discussed at the Western Economic Opportunities Conference, and will be of benefit to all areas of Canada. Transportation in particular is a key factor in regional development. A number of measures will be taken in the larger context of ensuring that Canada's transportation capability supports the Government's national goals and is safe and efficient. Steps will be taken to end any discrimination in freight rates. A new ports policy will be developed to ensure an effective and comprehensive port structure in Canada in a framework where a high degree of local involvement in management and improvement of ports can be established.

Other measures will be taken to increase production and employment through providing workers with im-

proved access to available jobs, and employers with improved access to Canada's manpower. These steps will relate employment policy, immigration policy and the activities of the Unemployment Insurance Commission. The Government will be working together with the provinces in developing a community employment policy in a social security context for those Canadians who have particular and continuing difficulty in getting and keeping employment. Amendments will be introduced to the Unemployment Insurance Act as a part of a comprehensive review of the plan undertaken in the light of the experience of the last few years.

In the domain of social policy the Government is playing a vital role to achieve a more balanced pattern of urban growth and to increase the quality of life in our cities in co-operation with the provinces and municipalities. Improved means of public transportation are indispensable to the achievement of these urban goals. Measures will be introduced to establish a National Urban Transportation Development Corporation to co-ordinate and market the development of required new technology in this field. You will be asked to consider measures to assist provinces and cities in the relocation of railway lines and terminals and in the redevelopment of these areas for purposes that will enhance the environment of many of our cities and towns.

Provision of adequate shelter at reasonable prices in a satisfactory neighbourhood environment has been a continuing concern of the Government, and levels of funding to meet this objective are being reviewed. Substantial assistance to rural and native housing programs will also be proposed. The sewage assistance program will be revised to make it more effective as a means to increase the supply of serviced land. The Government will introduce measures to increase the protection available to consumers in the housing market.

The Government has taken many measures to improve the status of women in Canada since the Report of the Royal Commission on the Status of Women. Amendments to the statutes of Canada will be placed before you for the purpose of providing equal treatment for women. The legislation to be introduced creating a Federal Commission on Human Rights and Interests will include provisions to protect women from discriminatory practices. Regulations governing government employees will be amended to remove all possible inequities based on sex. Crown corporations will be asked to undertake positive action to encourage the assignment and advancement of more women into responsible positions within their administration. The Government's objective is to create a society free from discrimination.

The federal and provincial governments have agreed that the Canada and Quebec Pension Plans should be further amended to provide for increases, beyond 1975, in the levels of income upon which contributions may be made, and in the pensions which will be paid. Legislation will be introduced to remove the earnings test now

required for people aged 65 to 69 from the Canada Pension Plan. Finally, federal and provincial ministers have agreed that the provisions which now accord differential treatment to men and women under the Canada and Quebec Pension Plans should be removed.

You will be asked to consider other legislative proposals.

Members of the House of Commons,

The Government intends to present a budget in this Session.

You will be asked to appropriate the funds required to carry on the services and expenditures authorized by Parliament.

Indexing of Committee Proceedings and Reports: The Index Section prepared indexes, in both official languages, to the proceedings of all Senate and House of Commons Committees of the Fourth Session of the 28th Parliament: 19 for the House of Commons and 7 for the Senate. The election also allowed completion of some indexes for previous sessions. When the 29th Parliament commenced, the Index Section for the first time indexed as the proceedings were published.

Vertical File and Clipping Service: Queries answered by the Vertical File Section reached a record 2,690, nearly 30% more than last year's 2,088; a 100% increase since 1968-69. The preparation and indexing of books of xeroxed files continued.

Continuing and Special Projects: The Reference Branch maintained the same files and indexes reported for 1971-72. *The Selected Additions List* and the *Selected Periodical Articles List* were also continued.

Two new subject bibliographies were prepared to replace older ones on the same subjects, *Capital Punishment/La peine de mort*, and *Library of Parliament/La Bibliothèque du Parlement*. A supplement to the *Inflation* bibliography of 1966 was also prepared. Revised editions of *This is Your Library/Voici Votre Bibliothèque* and *Periodicals and Newspapers Currently Received in the Library of Parliament and the Parliamentary Reading Room/Revue et Journaux à la Bibliothèque du Parlement et à la Salle de Lecture Parlementaire* were made available. Work continued on the *Chronology of Legislation in Process*, the *Constituency Representation History*, and the indexing of English language speeches delivered by parliamentarians outside Parliament.

B. *Reading Rooms*

In addition to the main Parliamentary Reading Room, a small Reading/Reference Room was opened in the

Confederation Building for the use of Members of Parliament and parliamentary staff.

C. Accessions and Cataloguing

Work in the Technical Services Branch increased over the previous year, notably in titles catalogued and classi-

fied and books ordered and received. This increase will probably continue as service to the Confederation Building and the expansion of parliamentary staff require additional copies.

The statistical report below compares 1972-73 with 1971-72.

NOTE: ¹Reduction caused by transfer of processing to Reference Branch.

*These figures include only material processed by the Technical Services Branch. In addition, the Reference Branch receives and processes material including approximately 10,000 microfiche, 700 reels of microfilm and 45,000 documents annually.

Welcome gifts were received from the embassies of Bulgaria, India, Portugal, Romania, Sweden, the U.S.S.R., the United States, and the Parliamentary Librarians of Australia, Hungary, and the United Republic of Cameroon. Additional useful items were received from institutions and individuals in Austria, England, the Federal Republic of Germany, South West Africa, and the United States.

Canadian parliamentarians continued to be generous contributors, particularly of government documents and ephemeral publications, especially Senators D. Cameron, A. Denis, and E. Forsey, and Members of Parliament B. Beer, L. Benjamin, E. Broadbent, G. Fairweather, the Hon. D. S. Harkness, the Hon. E. Kierans, A. Peters, D. Tolmie, I. Wahn, and the House of Commons Parliamentary Counsel. The House of Commons Postmaster presented a personal collection of 1st day covers dating from 1967 which will be displayed when appropriate space is made available.

Special thanks also to the National Librarian for arranging the magnificent restoration and return of a number of valuable 17th and 18th century volumes on British parliamentary practice and history, to the Librarian of the British Department of Trade and Industry for two volumes of British House of Lords Papers missing from our collection (Vol. 1, 1844 and Vol. 2, 1847); to the Hon. Judy LaMarsh, P.C., Q.C. for 50 scrapbooks of her personal clippings of 1964-1968; to Senator Donald

Cameron for an autographed copy of his book *China Revisited*.

Three typescripts, generously presented by their authors, were added to our Rare Book collection: the Hon. Paul T. Hellyer's, *Agenda: A plan for Action*; Anthony Westell's, *Paradox: Trudeau as Prime Minister*; Bruce M. Thordarson's, *Trudeau and Foreign Policy: A Study in Decision-Making*.

To all these, and others unmentioned, we again express our thanks.

D. Bindery

The bindery had problems as the Senior Binder was absent for 9 months. Fortunately, his assistant carried on ably, and though some 20% fewer books were bound, there was a considerable increase in repair and other work. Total tasks performed were 11,067, compared to 10,663 in 1971-72.

2. RESEARCH: Staff of 39

A. Individual and General Service

For the first time numerous background papers were prepared during the long recess, some 800 copies of which were sent to parliamentarians at their request.

The following tables give detailed comparative information. Of the 253 papers completed 38 were in French, an increase of 17.

B. Parliamentary Committees

The Director of the Branch continued to assist the House of Commons Standing Committee on Procedure and Organization on a regular basis, and played a major part in the drafting of its report on the broadcasting of parliamentary proceedings.

One officer continued to assist the House of Commons Standing Committee on Public Accounts, attending 14 of its meetings and three meetings of a special sub-committee established to conduct a C.B.C. inquiry. He was also a member of a special group set up by the Committee to consider the drafting of a new bill respecting the Auditor General of Canada.

Another officer prepared one of the year's most thorough and time-consuming projects for the House of Commons Standing Committee on Public Accounts. This

involved the preparation of an index, research and analysis of the hundreds of recommendations made by the Committee from 1947 to 1971, in order to determine which recommendations were still outstanding, their status, i.e. whether they had been fully or partially implemented or were regarded as being no longer applicable, etc.

Another officer attended all meetings of the House of Commons Standing Committee on National Resources and Public Works since January 1973, assisting the Committee as consultant. He prepared background papers on technical matters and advised on questions to witnesses.

C. Parliamentary Delegations and Conferences

Background papers prepared for parliamentary delegations included:

Water Pollution from a Canadian Viewpoint

The Eradication of Drug Abuse and Illicit Traffic in Drugs

Security of Members of Parliament: A Summary of Recent Events

Challenges to Parliamentary Democracy

Background Report on Ugandan Expulsion of Asians

The Director of the Research Branch maintained his connection with the Commonwealth Parliamentary Association. He attended the Conference of the Canadian Regional Council in May 1972, and in August the Canadian Regional Conference in Manitoba. He edited the report of the latter conference.

3. ADMINISTRATION AND PLANNING

A. Space

A partial solution to our space problem is anticipated when the Administration Branch and the major portion of the Research Branch move to the Confederation Building.

B. Mechanization

The I.B.M. MT/ST process for the preparation and reproduction of catalogue cards, installed June 1971, considerably increased the number of master cards typed and the cards prepared for the catalogue. However, the present machine cannot process the cataloguers' output fast enough and another has been ordered.

QUICK/LAW Information Retrieval System: The QUICK/LAW Cathode Ray Tube terminal, introduced in 1971, provided access to 4 data bases and all members of the professional staff received instruction in its use. Increased use depends on enlarging the data bases already provided and increasing the data bases available.

C. Additional Assistance

Student assistants, 14 this year, were employed during the summer and cleared a number of clerical backlogs. As a preliminary to a library science course, one young man worked unpaid for several weeks during the same period.

D. Courses, Conferences, Meeting, Demonstrations and Working Visits

Several staff members continued English and French courses provided by the Language Bureau of the Public Service Commission: two successfully passed the P.S.C. Bilingual Test. The Parliamentary Librarian continued private lessons provided by the Language Bureau.

Other staff took courses in Library Technology, Canadian History, Political Science, etc. Demonstrations of automated retrieval techniques or equipment and bindery equipment were also attended.

The Parliamentary Librarian, together with the Associate Parliamentary Librarian, jointly chaired the second invitational meeting of Canadian parliamentary and legislative librarians at the Library of Parliament May 29-30, 1972. Representatives from the National Library of Canada and members of the Library of Parliament staff also attended. Among the speakers were Mr. David Holland, Librarian of the House of Commons Library, Westminster.

Library staff continued participation in professional activities and attended the following 1972 annual conferences: Ontario Library Association, Kingston, May; Canadian Association of Law Libraries, Edmonton, May; Canadian Library Association, Regina, June; Special Libraries Association, Boston, June; l'Association Canadienne des Bibliothécaires de Langue Française, Quebec City, Autumn.

In February 1973, the National Library held a meeting with the Canadian Association of Law Libraries on *The Role of the National Library in the Collection, Organization and Delivery of Legal Materials*, which the Parliamentary Librarian, the Assistant Parliamentary Librarian and others attended.

Staff members also continued to serve in their professional societies: The Assistant Parliamentary Librarian as Treasurer of the Canadian Association of Law Libraries and a member of the Canadian Library Association's Microfilm Committee; another librarian as editor of *The Guide to Sources of Information in Canadian Business and Economics*, published by the Canadian Library Association, and as liaison representative between the Canadian Association of Special Libraries and Information Services and the Technical Services Section of CLA. An indexer continued as Chairman of the Index Committee of the Bibliographical Society of Canada, and in November 1972 attended a meeting of the CLA Editorial Advisory Board on the publication *Canadian Reference*

Sources. He also completed two articles for the Indexer, one, in collaboration, entitled *Indexing in Canada: Local and Commercial Services*, the second, *Book Indexing in Canada*.

Several research officers attended courses and conferences: Engineering Seismology, Berkeley Campus, University of California; Annual Meeting, Canadian Historical Association, Montreal; Conference on Social Welfare, Laval University, Quebec; Conference on Federalism, University of Comparative Sciences, Luxembourg; the International Geological Congress, Montreal; the North-East Regional Conference of the Institute of Internal Auditors, Toronto.

The Associate Parliamentary Librarian attended various meetings of the Canadian Micrographic Society of which he is Secretary-Treasurer, and meetings of the Special Libraries Association's Montreal Chapter of which he is a past-president.

The Parliamentary Librarian attended the Conference on International Communications and Institutions sponsored by the federal Department of Communications, the International Law Association (Canadian Branch), and the American Society of International Law, in Ottawa, March, 1973.

4. PARLIAMENTARY INFORMATION AND ASSISTANCE BEYOND PARLIAMENT

A. Assistance to Libraries

The Director of the Technical Services Branch continued her work with the National Library Task Group on Cataloguing Standards as a member of the Final Report Committee and in March 1973 served on the Board for the selection of a Head of Technical Services for the Library of the University of Ottawa. This Branch was consulted by other libraries encountering similar problems with bilingual cataloguing, the organization and cataloguing of government documents, and special problems of classification, especially for law books.

The Parliamentary Librarian continued to serve on the Board of the Ottawa Public Library to which he was appointed for a 3-year term in 1970, and in June 1972 was its representative to the Canadian Library Trustees' Association meetings at the Canadian Library Association Conference in Regina.

During February 1973 the Librarian of the Quebec National Assembly Library, Mr. Jacques Prémont, and several of his officers, consulted the Director of our Research Branch regarding the organization of a Research Branch in their Library and also observed the operations of our Branch.

With our permission the National Library issued a microfilm supplement to the official "Canada" main entries in our card catalogue, the original entries having been filmed some years ago. We also co-operated actively with teams from the Federal Government Library Sur-

vey, involving the completion of a number of questionnaires on staff, collections, systems and procedures, etc.

During 1972-73 the United States Historical Documents Institute began microfilming all Canadian federal parliamentary publications, including those of the Province of Canada, from 1841 to 1970 inclusive, the Library providing all documents for filming. The microfilming of the Province of Canada Publications and federal Sessional Papers is being done here. The microfilm of the Journals and the Sessional Papers of the Province of Canada (1841-1866) has now been issued and the Library has received its copy together with the reprinted indexes for this period.

B. Assistance to Scholars and Others

British Parliamentary Papers. Our collection continued to draw researchers. Of special interest was the discovery of a suppressed report by Matthew Arnold made while an inspector of schools.

Twenty-three unique House of Lords Bills (1790-1798) were copied for Oceana Publications to help complete their 1641-1805 reprint edition of House of Lords Sessional Papers. We possess the only substantial collection of early Lords Papers outside Britain thanks to the House of Lords' generous presentation in 1855 of a complete set (100 volumes) of Journals and a 1,200-volume collection (1790-1854) of Sessional Papers which had been solicited by the Library.

Nature Canada Magazine photographed 3 plates (the Auk, the Icelandic Falcon, and the Willow Grouse) from the Library's copy of Audubon's double elephant folio *The Birds of America* to be used in an article on Audubon's visit to Labrador and Newfoundland.

C. Distribution of Surplus Items

During 1972-73 6,500 volumes of Canadian documents were supplied to the National Library of Canada, several Canadian universities and public libraries, the Glenbow Foundation, Alberta, and La Trobe University, Australia.

Books received from the Dead Letter Office of the Post Office were added to our collection, sent to government and public libraries and other institutions in Canada and abroad, or otherwise disposed of.

D. Educational Assistance

The Library again accepted, for practice work, library technology students from the CEGEP in Hull. Students from the Library Technician Program at Cambrian College, Sudbury, Fanshawe College, London, and the School of Library Services, Dalhousie University, visited the Library.

E. Visitors

Many Canadian librarians visited as did librarians from Australia, Belgium, Denmark, England, Germany, Israel, New Zealand, and Switzerland. Parliamentary delegations were received from India, Romania, and Yugoslavia. Individual visitors from foreign Parliaments were: Mr. A. R. Cumming Thom, Clerk Assistant of the Senate and Mr. Douglas Blake, Clerk Assistant, House of Representatives of the Australian Parliament; Mr. James Hamilton, M.P., and Sir Harmer Nicholls, M.P. of the British House of Commons.

Other foreign visitors included: Mr. John Beckwith, Deputy Keeper, Department of Architecture and Sculpture, The Victoria and Albert Museum, London, England; Mr. Joseph de Coe, Director, Museum Mayer Van den Bergh, Antwerp, Belgium; Mr. Enos Sewlal, Government Archivist, National Archives and Mr. Cecil Haig Dolly, Permanent Secretary, Ministry of External Affairs, Trinidad and Tobago.

The following diplomats were welcomed: Mr. K. M. Lal, First Secretary (Commercial) Indian High Commission; Col. N. I. Neboratchko, Military Attaché, Embassy of the U.S.S.R.; Miss Elinor Green, Second Secretary, Embassy of the United States and Mr. Brian F. Fordney, Director, U.S. Information Services; Mr. Eugen Popa, First Secretary, Embassy of Romania; Mr. Philip Noakes, Counsellor (Information), British High Commission; Mr. Per Hakan Lindstrom, First Secretary (Press and Information), Embassy of Sweden; Viscount Dunrossil, Counsellor and Head of Chancery, British High Commission.

F. International Service

The Parliamentary Librarian continued as Canadian Correspondent for the Inter-Parliamentary Union's Centre for Parliamentary Documentation in Geneva and for the Parliamentary and Administrative Libraries Section of the International Federation of Library Associations in The Hague. He also served as a member of the Standing Advisory Committee of the Special Libraries Section and the Committee on Exchange of Publications of IFLA. He was the Canadian Library Association voting delegate at the IFLA Conference in Budapest, August/September 1972, and was elected to a 3-year term as President of the Parliamentary and Administrative Libraries Section, the first non-European to hold this office.

He was the sole Canadian invited to the Conference of European Experts on the International Exchange of Publications organized under the auspices of IFLA and UNESCO, in Vienna, April 1972. He was an invited Rapporteur at the Inter-Parliamentary Union's 3rd International Symposium on *The Member of Parliament: His Requirements for Information in the Modern World* in Geneva in January 1973 and delivered a paper on *Parliamentary Libraries: Their Role in Helping Parliamentarians be Well-Informed and Appearing Well-Informed*.

During 1972-73 he visited the parliamentary libraries in Berne and Budapest; the House of Commons Library, the Parliamentary Information Centre of the Commonwealth Parliamentary Association, and the Library of the Department of Trade and Industry, all in London, and the Inter-Parliamentary Union's International Centre for Parliamentary Documentation in Geneva.

The Associate Parliamentary Librarian was elected incoming-president of the Special Libraries Association at its annual meeting in Boston, June 1972, the first Canadian to be so honoured.

In September 1972 the Director of the Research Branch attended the meeting of the Standing Committee of the Conference of Speakers and Presiding Officers of Commonwealth Parliaments in Nairobi, Kenya, representing Mr. Speaker Lamoureux and acting as secretary. At the request of the Speaker of the National Assembly of Zambia he went to Lusaka during the 1973 Easter Recess to assist in the preliminary organization of the conference to be held there.

In January 1973, as a member of the Canadian delegation, he attended the Inter-Parliamentary Union's 3rd Symposium *The Member of Parliament: His Requirements for Information in the Modern World*, and prepared a long report on the proceedings for the Canadian Branch of the Inter-Parliamentary Union.

The Assistant Director was closely involved with the French-speaking associations to which the Canadian Parliament belongs. She accompanied the Canadian dele-

gation to the 6th meeting of the Canada-France Inter-parliamentary Association in Paris, June 28 to July 5, 1972, having prepared two important background papers: *Le Parlement et ses relations publiques* and *Les confits d'intérêts et les parlementaires*, and wrote the final report for the Canadian delegation.

In January 1973 she accompanied the Canadian delegation to Dakar, Senegal, to attend the 4th meeting of l'Association internationale des parlementaires de langue française as secretary and adviser, assisted in the preparation of speeches and prepared the Canadian delegation's report. Two other officers contributed background papers: *Propositions destinées à stimuler les communications entre l'A.I.P.L.F. et les autres associations internationales de parlementaires* and *Les techniques de diffusion en plusieurs langues*.

CONCLUSION

Finally, we again thank the staff of the Senate, House of Commons, Department of Public Works, Public Service Commission, Central Pay Office, and all others who helped us to carry on our work with a maximum of cheerful efficiency. Without their help our efforts would have been less pleasant and less effective.

Respectfully submitted,

ERIK J. SPICER,
Parliamentary Librarian.

The Honourable Senator Everett from the Standing Senate Committee on National Finance which was authorized to examine and report upon the expenditures set out in the Supplementary Estimates (B) laid before Parliament for the fiscal year ending the 31st March, 1974, presented the following Report:—

WEDNESDAY, 27th March, 1974.

The Standing Senate Committee on National Finance, to which the Supplementary Estimates (B) laid before Parliament for the fiscal year ending March 31, 1974, were referred, has in obedience to the order of reference of Tuesday, March 19, 1974, examined the said Estimates and reports as follows:

1. Your Committee was authorized by the Senate, as recorded in the Minutes of the Proceedings of the Senate of the 19th March, 1974, "to examine and report upon the expenditures set out in the Supplementary Estimates (B) laid before Parliament for the fiscal year ending the 31st March, 1974, and tabled in the Senate on Tuesday, 12th March, 1974."

2. This is an interim report to be followed by additional hearings on the said Supplementary Estimates (B) for the fiscal year ending March 31, 1974, leading to a final report.

3. In obedience to the foregoing, your Committee made a general examination of the Supplementary Estimates (B) and heard evidence from The Honourable C. M. Drury, President of the Treasury Board, and Mr. B. A. MacDonald, Assistant Secretary, Program Branch, Treasury Board.

4. These Supplementary Estimates total \$1,120 million and bring the total Estimates tabled for the fiscal year ending March 31, 1974, to \$21,411 million. It is to be noted that the Supplementary Estimates (A) and (B) total \$2,124 million increasing the original Main Estimates from \$19,286 million, which, in percentage terms, is an increase of 11%. This increase in the size of Supplementary Estimates in relation to the original Main Estimates has been growing over the past few years and is a matter of concern to your Committee.

5. The largest items in these Supplementary Estimates are as follows:

a) A payment to the Old Age Security Fund to make up the deficiency in the fund, which has arisen out of the increase in the basic pension and the introduction of quarterly indexing \$235 million

b) Higher Family Allowance payments reflecting the increase in the average payment from \$12 to \$20 for each child, following the increase last October from the \$6 and \$8 rates which then prevailed \$190 million

c) Subsidies to hold down the price of petroleum products to Canadian consumers despite the steep rise in world prices \$240 million

d) Equalization payments to certain provinces reflecting the recent amendments to the relevant statute so as to include education property taxes as a revenue to be equalized \$146 million

e) Another payment to the provinces under revenue guarantees that accompanied tax reform .. \$50 million

f) Payments to Alberta and Saskatchewan as provided under the Oil Export Tax Act \$76 million

g) Payments to the railways to compensate them for the freezing of freight rates \$41 million

h) Additional subsidies to producers of manufactured milk \$31 million

6. The Treasury Board has supplied your Committee with a list explaining the \$1 items in Supplementary Estimates (B).

7. Your Committee expressed concern about the lack of detail that is available in the Supplementary Estimates on the source of funds that constitute a transfer from a vote in previous Estimates to the new Supplementary Estimates. Your Committee recommends that in the case where funds are transferred that full detail be given on the sources of these funds, especially if the source is due to a reduction in a capital project.

8. In continuing its examination on Supplementary Estimates (B), your Committee proposes to consider the following items:

a) The growth in the personnel establishment in the Public Service of the Federal Government. In this connection the following figures indicate the man years in each of 3 years from 1971-1974 for departments, departmental corporations, departmental agencies and certain Crown Corporations whose man years are subject to Treasury Board control:

Year	Total Personnel
1971-72	256,000 man years
1972-73	265,000 man years
1973-74	292,000 man years

These figures indicate an average increase of employment over the last 3 years of 6% per year.

b) The auditing procedures that are to be employed in ensuring that the \$240 million paid to oil importers for the restraint of prices of petroleum products to consumers during the period commencing January 1, 1974 and ending March 31, 1974, are fully adequate.

c) At March 31, 1971, the Old Age Security Fund had a cash balance of \$728.4 million. As at March 31, 1974 it is forecast that the fund will have a cash deficit of \$235 million. Your Committee proposes to enquire into the reasons for this situation and what steps are being taken to correct them.

Respectfully submitted.

The Honourable Senator Hayden, from the Standing Senate Committee on Banking, Trade and Commerce to which was referred the Bill C-6, intituled: "An Act to amend the National Parks Act", presented the following Report:—

THURSDAY, May 2, 1974.

The Standing Senate Committee on Banking, Trade and Commerce to which was referred Bill C-6, intituled: "An Act to amend the National Parks Act", has, in obedience to the order of reference of Tuesday, April 23, 1974, examined the said Bill and now reports the same without amendment.

In addition, your Committee desires to state that, despite the urgency of this legislation in the present circumstances, it should at once indicate its opposition to the principle of clause 2 of Bill C-6, and that it should serve notice that the clause will not be taken as a precedent in so far as the Senate is concerned and that such provisions, which fail to recognize sound parliamentary principles, should not be included in future. Moreover, the inconsistency between clause 2 and clause 10 of the Bill should also be noted. Obviously the establishment of new parks and the significant enlargement of existing parks should be dealt with on the same basis.

However, the Committee considers that the availability of the beneficial provisions of the Bill should not, at this time, be delayed because of the defects noted above.

Respectfully submitted.

SALTER A. HAYDEN,
Chairman.
